Superior Trailer Works

10-20-09

From: Jay Pocock, Superior Trailer Works
To: All Owners and Dealers of Construction Trucks & Trailers

Re: Reliance Trailer Parts, Service and Manufacturing

We have recently received a number of calls concerning parts and service for Reliance trailers and bodies. Superior Trailer Works (in business since 1935) has for many years supplied a full line of replacement parts for Reliance equipment.

Prior to 2001, Superior had a forty-plus year relationship with Redwood Reliance Sales Co. and the Ling family. In fact, from 1979-1983, we actually built and serviced Reliance products here in Southern California at our shop in Fontana. Superior was also a dealer for Reliance from 1983-2001. So we are very experienced servicing all Reliance equipment.

We have hands-on experience with manufacturing, parts, service, and repairs for all your Transfers, Superdumps, Bodies and Trailers, for both Superior and Reliance. We work on all shapes and types of metals. Elliptical, square, or any style desired, we build and service it.

Superior stocks all parts you may need at a very competitive price, and generally we provide same day shipping. Our Parts Department Hours are: 8 am - 4:30 pm (Mon.-Fri.).

We also have two very experienced and capable salesmen in Central and Northern California who would be happy to service your account. They can assist you or assess your needs.

We are open 24-hrs, 7-days a week for equipment drop offs.

As the owner of Superior, I am committed to maintaining our California based business and servicing the construction industry for the long haul!

Thank you,

Jay Pocock
